

*How will the state treat an application listing an identifying number that is either incomplete or illegible?* If the applicant is otherwise eligible, she will be registered, but if uncorrected (see below), she will have to provide identification before voting or at the polls.

## **Matching Against Motor Vehicle and Social Security Records**

*What fields from the voter registration form will the state seek to match to motor vehicle or Social Security records?* Identifying number only.

*How precise is the match standard?* Mississippi intends to use an exact match standard, but has not yet finalized the criteria by which a match will be sought.

*How much human intervention is involved in determining whether information is matched?* Mississippi intends to use a fully automated system, but has not yet completed system design and has not yet fully determined the extent of human discretion that will be involved.

*Description of matching process:* The Secretary of State will attempt to match information on voter registration forms with information in records collected by DPS, but the process by which a match will be sought has not yet been determined. Currently, the state expects to seek an exact match of the identifying number alone. If the number can be found on Mississippi records, it will be deemed verified, and the voter will be exempt from identification requirements; if not, the voter will be registered, but must present identification at the polls.

*What are the consequences if the state cannot find a match?* If the applicant is otherwise eligible, she will be considered registered, but if uncorrected (see below), she must show identification at the polls.

Mississippi will also send each prospective registrant a notification form; if the notice is returned as undeliverable, the registration will be rejected.<sup>5</sup>

## **Notice and Opportunity to Resolve Errors**

*Does the applicant have the opportunity to correct a missing or incomplete identifying number, without submitting a new form?* Mississippi leaves this decision to the discretion of each circuit clerk. If the clerk believes that the defect is minor, and that the additional information can be supplied by mail or over the phone, the applicant may correct the error by mail or over the phone at any point before the close of voter registration.<sup>6</sup>

*Does the applicant have the opportunity to resolve a failed match, without submitting a new form?* Mississippi leaves this decision to the discretion of each circuit clerk. If the clerk believes that the defect is minor, and that the additional information can be supplied

by mail or over the phone, the applicant may correct the error by mail or over the phone at any point before the close of voter registration.<sup>7</sup>

*If information on an otherwise timely application is corrected after the voter registration deadline, is the correction timely?* Mississippi leaves this decision to the discretion of each circuit clerk.

*Description of notice and correction process:* The circuit clerk will attempt to notify an applicant whose identifying number is missing, incomplete, illegible, or unverified, and if the circuit clerk believes that the defect is minor, the applicant may correct the error at any point before the close of registration.<sup>8</sup> If the identifying number is not supplied or cannot be verified, the applicant will still be registered, but must provide identification at the polls.

## Identification Requirements at the Polls

*Who must provide identification at the polls?* A voter who has not submitted a copy of valid identification, and whose identifying number has not been verified, must provide identification at the polls.

### Forms of ID:

voters without verified identifying number:	current and valid photo ID current utility bill w/ name, address bank statement w/ name, address government check w/ name, address paycheck w/ name, address other gov't document w/ name, address
---	---

*Note:* Naturalized Mississippi citizens must also present a certified copy of the final order of naturalization or a certificate of naturalization at the time of registration.<sup>9</sup>

*What forms of identification are accepted?* A current and valid photo ID, a voter identification card, or a copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the voter's name and address.

*What are the consequences of failing to show identification?* The voter may cast a provisional ballot. The ballot will be counted if the county election commissioners believe the vote to have been cast by a properly registered voter or an eligible voter who was illegally denied registration.<sup>10</sup>

## Statutes and Regulations

MISS. CODE ANN. §§ 23-15-11 *et seq.* generally concern registration. MISS. CODE ANN. § 23-15-165 directs the Secretary of State to establish and maintain a single statewide voter registration database. There are no applicable regulations.
